### **C&E Spring Meeting 2009- Whole Grain Global Summit** **March 25-27, 2009, Newcastle upon Tyne, UK**

The subscription to the meeting is now open and many have already registered !!

**[Follow the link !!!](#)**

Here you can find also the **[final program](#)**

### **8<sup>th</sup> European Young Cereal Scientists and Technologists Workshop**

The 8<sup>th</sup> edition of this famous workshop will be held in ***Viterbo, Italy on August 3-5, 2009!*** The aim of the workshop is to especially attract (young) people, new to the field of cereal science and to cover a broad range of cereal related topics, including breeding, biotechnology, ingredients-functionality, processing, nutrition....

This low cost workshop also intends to facilitate the dissemination of and to stimulate the discussion about state of the art topics in the field. It is also specifically designed to initiate networking in this group of people who will be the future of the cereal community.

You will find more information in the **[first announcement](#)**. Registration will be open soon!!.

### **Breakfast Cereal Course March 9-11, 2009 , Peterborough-West, UK**

The objective of this Master Class is to improve your understanding of the practical applications of breakfast cereal production. The course will cover the entire process from raw materials through processing and packaging. Complementing the course is an afternoon field trip to Baker Perkins. For further information see **[here!!](#)**
